& AIR CONDITIONING SYSTEMS

• **Craftsmanship** • **A Fine Tradition** •

**(905) 471-1748**

With the warmer weather arriving and customers starting to think about servicing their air conditioning systems, a few things our technicians have noticed are that the heating and air conditioning systems in our homes have been working harder with everyone being home more and an abundance of dirty, plugged filters.

A valuable lesson learned last summer, due to the Pandemic there was a shortage of equipment due to supply and delivery. So if you're thinking of changing up your old equipment, we strongly advise you plan ahead. In some instances last year we waited as much as three months for equipment. We wouldn't want a summer to go by without air conditioning or a pool heater due to a shortage of equipment.

So please give us a call and set up your spring air conditioner or pool heater service, so you're ready for another great summer.

A reminder that we also service gas fireplaces, air filters and pool heaters.

The new degree of comfort.™
